

#### **Basis**

Gasket material based on organic fibre with NBR binder and steel wire reinforced.

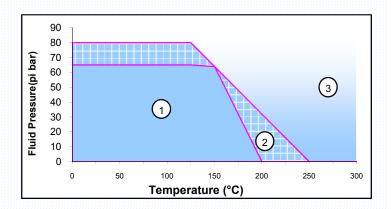

#### Factors affecting on the gasket

The suitability of a gasket material for an application is dependent upon a multiplicity of factors as shown in the above digram. Max. temperature and pressure values can not define the suitability for application. It is always advisable to consider these factors when selecting a material for a given application.

#### **Application**

General purpose metallic grade suitable for medium pressure steam, water, oils, fuels and inert gases for low stress conditions.

#### Areas of application

- This area refer , the gasket material is normally suitable subject to chemical compatibility.
- This area refer, the gasket material may be suitable but a technical support is recommended.
- 3)This area refer, do not install the gasket without technical evaluation.

#### Dimensions of the standard sheets

 $Standard\ sheet\ sizes: 1500\ X1500\ mm, 1500\ X2250mm,\ 1500\ X4500\ mm,\ 1500\ X1000\ mm,\ 1000X1000mm,\ 1500\ X4000\ mm,\ 1500\ X2000\ mm,\ 1300\ X3900\ mm,\ 1270\ X1270\ mm,\ 2100\ X\ 3000\ mm,\ 1500\ X\ 3000\ mm,\ 1500\$ 

Finish: G/GR

(other Colour on Customer requirement).

**ASTM F 104 Line Call out:** F 712232 E34 A9 B6 M9

#### **Technical data**

All data are typical values and refer to sheet thickness of 2.0 mm

	Test method	Specified Value	Unit
Max. Peak Temperature		250	°C
Max. Operating Temperature		200	°C
Max. Operating Pressure		80	bar
Density	ASTM F 1315	1.70 - 2.0	g/cm³
Compressibility	ASTM F 36 J	7 -17	%
Recovery	ASTM F 36 J	≥ 40	%
Tensile Strength	ASTM F 152	≥ 8	N/mm <sup>2</sup>
Creep Relaxation	ASTM F 38 B	≤ 40	%
Stress Relaxation (16h 175° C)	DIN 52913	≥ 17	
Gas Sealability	ASTM F 37 B	< 1.0	ml/ hour.
ASTM oil no.3 (5h, 150°C)	ASTM F 146		
Thickness Increase		≤ 15	%
Weight Increase		≤ 20	%
ASTM Fuel B (5h, 23°C)	ASTM F 146		
Thickness Increase		≤ 20	%
Weight Increase		≤ 20	%
Water (5h, 100°C)	ASTM F 146		
Thickness Increase		≤ 10	%
Weight Increase		≤ 15	%

All information and recommendations given in this brochure are correct to the best of our knowledge .

However , in view of the wide variety of possible installation and operating conditions one cannot draw the finel

conculusion in all application cases regarding the behaviour in a gasket joint. Therefore, information can only serve as a guideline.

# MATERIAL SAFETY DATA SHEET NON ASBESTOS MATERIAL

#### 1- IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name Superlite Asbestos Free GP 200 Steel (Reinforced)
Identity Compressed rubber –bonded organic fiber Gasket sheet

Description: G. I. Wire Mesh, Organic fiber, rubber bonded &vulcanized under pressure

Other Generic Names: Non-asbestos sheet, compressed non-asbestos gasket Sheet,

Asbestos Free Jointing Sheet.

MSDS Number SJPL NAM - 02

Supplier Superlite Jointings Pvt. Ltd.

Plant Address: Village Galand, Dibarsi Road,

Jindal Nagar, Hapur (U.P.) India.

## 2 - HAZARDS IDENTIFICATION

Not classified as hazardous according to the criteria of NOHSC.

The product is considered harmless to health and the environment in the form supplied and if stored and handled in the correct manner – see Section 7. No hazards are known based on present information.

# 3 - COMPOSITION/INFORMATION ON INGREDIENTS

Rubber binder (NBR) <25 %
Organic fibers <25 %
Inert inorganic fillers <40-80 %
Wire Mesh <5 %

Note: These materials are bonded with a vulcanized rubber matrix. No Precautions needed unless material is to be subject to a dust –producing process

# **4 - FIRST AID MEASURES**

**Inhalation** Dust arising from working the product should be treated as nuisance

particulate material. Inhalation of dust may cause irritation to the mucous membranes and upper respiratory tract. Movement of exposed individual

to fresh air is recommended.

**Skin** May cause irritation to individuals with sensitive skin. Wash skin with soap

and water. Launder heavily contaminated clothing before reuse. If prolonged

irritation occurs, seek medical advice.

**Eye** May cause mechanical irritation in contact with eyes. Remove small solid

particles and rinse with water for a minimum of 15 minutes. In all cases of

eye contamination it is a sensible precaution to seek medical advice.

**Ingestion** Not hazardous. Not a likely source of exposure. If ingested, give plenty of

fluid to assist passage through system. Seek medical attention if irritation

occurs.

# **5 - FIRE FIGHTING MEASURES**

Suitable Extinguishing Media Water, carbon dioxide, powder extinguishers, foam extinguishers

Hazards from Combustion Products In case of combustion, the same gases are produced as with

burning rubber. The following may be produced in case of fire: Carbon monoxide; carbon dioxide; sulphur oxides; nitrous gases (NOx); irritating/caustic, combustible as well as poisonous

carbonisation gases.

**Precautions for Firefighters and** 

**Special Protective Equipment** Breathing apparatus and eye protection must be worn to protect

from dust, fumes and burning rubber

# **6 - ACCIDENTAL RELEASE MEASURES**

**Emergency Procedures** Fire: See Section 5

Personal: See Section 4

Environmental: No known environmental hazards exist.

**Methods and Materials for** 

**Containment and Cleanup** Approved vacuum cleaners with high efficiency filters (HEPA)

conforming to AS3544 or equivalent must be used to clean areas.

**Additional** In the case of improper use (see Section 8) fine dust may result. Adequate

suction and filtering of the exhaust air should be ensured.

## 7 - HANDLING AND STORAGE

**Handling** Care must be taken as the material may have protruding wire that may cause

laceration. No special precautions necessary when handling the material in its finished form as the synthetic mineral fibres are encapsulated in a rubber matrix. However, whenever further processing of sheets/gaskets is undertaken, the potential for the

release of fibres exists.

**Storage** Store in a cool, dry, well ventilated area removed from foodstuffs. Ensure ventilation

is adequate to disperse vapours emitted from the binding material. Vapours may

include traces of carbon monoxide, carbon dioxide, oxides of nitrogen and

formaldehyde. Material should not be stored in the vicinity of heat sources. Material is only flammable through the effects of intensive heat. Excessive heat or humidity in the storage area may diminish the product's performance in its intended application.

# **8 - SPECIAL PROTECTION**

When subject to operations that create dust levels higher than  $10mg\mbox{\sc m}3$  (Nuisance dust) use dust Collection and /or dust respirator.

# 9 - PHYSICAL AND CHEMICAL PROPERTIES

Solubility (water) - Insoluble Specific Gravity/Density - 1.70-2.00 g/cc

Odour - None

Appearance - Flat or rolled sheet from 0.75mm upto 6.00mm in Thickness.

Colour is Grey/Graphited.

## 10 - STABILITY AND REACTIVITY

This is stable material under normal use, handling, and storage conditions. Shelf life is measure in years. In service avoid incompatible media .The importer can provide chemical resistance data upon Written Request.

## 11 – HEALTH HAZARD INFORMATION

Ignition of this material may result in the releases of toxic gases

Drilling sawing sanding or other methods should not create excessive amount of dust.

#### 12 - ECOLOGICAL INFORMATION

**Ecotoxicity** Not known. Insoluble in water, precipitates.

**Persistence and Degradability** Not known. Not biologically degradable (self-classification).

**Mobility** Not known

## 13-DISPOSAL PROCEDURES

Dispose of in a sanitary landfill in accordance with federal, state, and local regulations of country.

#### 14 - TRANSPORT INFORMATION

UN Number None allocated

**UN Proper Shipping Name** None allocated

Class and Subsidiary Risks Not relevant

Packing Group Not relevant

**Special Precautions for User** Do not transport with Explosives, Oxidising agents, Organic peroxides

and foodstuffs. In sheet and cut under normal transport conditions. Not defined as a Dangerous Good by the Australian Code for the Transport

of Dangerous Goods by Road and Rail.

Hazchem Code None allocated

## 15 - REGULATORY INFORMATION

Regulations for dangerous materials not applicable.

# **16 - OTHER INFORMATION**

The information presented is based on the present level of knowledge and experience.

All information and recommendations contained in this publication are to the best of our knowledge. Since the conditions of use are beyond our control, users must satisfy themselves that products are suitable for the intended processes and applications. No warranty is given or implied in respect of information and recommendations or that any use of the products will not infringe rights belonging to other parties. In any event or occurrence, our liability is limited to our invoice value of the goods delivered and properties without notice.
